

Seniors for Seniors

Seniors can obtain a senior pet at a reduced adoption rate. Puppies and younger dogs are usually not appropriate for senior persons who generally are looking for a more gentle, less lively option in adopting a pet that is just right for them. Senior pets are at a great risk for being euthanized; therefore, this adoption program benefits the person and the pet. So, if you are looking for a faithful and caring four-legged companion – a companion that takes little, but gives much – check out the Seniors for Seniors component of “A Time for Paws”, Inc.

Additional components of “A Time for Paws, Inc. include:

- A pet hotel
- Building a no-kill sanctuary
- Animeals – partnering with UCHRA to provide proper pet food to families needing food.
- Providing puppies to the prison system (well-being of prisoners and puppies)
- Animal Transports for re-homing

This organization appears at public fairs and adoption events to promote their services.
