

Seniors for Seniors

Seniors can obtain a senior pet at a reduced adoption rate. Puppies and younger dogs are usually not appropriate for senior persons who generally are looking for a more gentle, less lively option in adopting a pet that is just right for them. Senior pets are at great risk for being euthanized, therefore, this adoption program benefits the person & the pet. So, if you are looking for a faithful and caring four-legged companion – a companion that takes little, but gives much – checkout the Seniors for Seniors Program.
